FAQ - Serpentine

Use

Which features does the Serpentine offer me?

The Serpentine is a slim garden shower made from stainless steel. All it needs is access to a water point. By connecting it to a garden hose, the shower is ready for use.

Safety

What safety hazards does the Serpentine pose?

The Serpentine could fall over when bumped into, or when placed on an uneven ground. When water is left in the Serpentine in warm weather for a long time, there is a risk of the legionella bacteria. To prevent this, make sure to drain the Serpentine after using it.

Maintenance

What do I need to pay attention to when maintaining the Serpentine?

To maintain the best quality of the Serpentine, clean it regularly with a soft cloth or non-abrasive brush. Use a mild soap solution. For a more thorough cleaning, professional stainless steel cleaners are recommended. Be sure to always rinse the Serpentine after cleaning.

How important is maintenance to the Serpentine?

Since the Serpentine is made of stainless steel, it does not require heavy maintenance.

Which cleaning products can I use on the Serpentine?

A mild soap solution. For heavier cleaning, use professional stainless steel cleaners.

Weather conditions

Which weather conditions will the Serpentine withstand?

The Serpentine is able to withstand daily weather conditions. However, make sure there is no water left in the Serpentine when it's freezing.

Material

What materials does the Serpentine consist of?

Stainless steel.

How much does the Serpentine weigh?

5 kg / 11 lbs.

Is the Serpentine easy to move?

Due to the light design, the Serpentine is easy to move around by yourself.

Packaging

How will the Serpentine be packaged?

The Serpentine is packaged in a cardboard box.

What packaging materials are used?

Cardboard.

What are the dimensions of the packaging?

108 x 64 x 15 cm.
